Preter-, preter- (pri·tə), *prefix* The L. adv and prep *præter* past, by, beyond, above, more than, in addition to, besides, comparative of *præ* before, = further forward, more in front

1. In Latin *præter* adv. was prefixed only to verbs and the verbal nouns and adjs, as *præter-currĕre* to run by or past, *prætergredi* to go by, march past, to surpass, *præterire* to go or pass by, omit, pass over, pass away (in time), *præterens* passing, *præteritus* past *præterito* a passing by or over, *præterlabi* to glide or slip by, *prætermittĕre* to let go by, omit, overlook, *prætermissio* omission, etc Hence the Eng *pretergress, -gression, preterient, preterite, -ition, -itness, -termit, -mission*, etc, and the analogous *pretergeneration, preteroffice*

2. In Scholastic Latin, adjectives began to be formed from L phrases with *præter* prep + sb, e.g *præternaturalis*, from *præter naturam* (NC.) beyond or outside nature, Du Cange has of 1451 *prætermecessarius*, from *quod præter necessitatem est* what is beyond necessity. Hence from *præternaturalē* ADV., Eng *preternatural* a 1600, followed in the 17th c. by *preternotorious, natural, regular, royal, -legal, intentional, scriptural, -seasonable*, etc; *preterhuman, nuptial, sensual*, etc are 19th c. formations From these adjs, adverbs and nouns of quality, as *preternaturally, preternaturalness*, are always possible, *preterphysicality* follows this analogy

All the derivatives from words already in Latin, with the more important adjs, appear in their places as Main words; those of less importance (many only nonce words) follow here

B Signification

[Etymologically *preest* represents Gr *πρεσβύτερος*, L. *presbyter*, ELDER: but by A.D 175 or earlier, and thus long before the L. or Romanic word was taken into Eng, the L. word *sacerdos*, originally Gr *ἱερεύς*, applied to the sacrificing priests of the heathen deities and also, in the translations of the Scriptures, to the Jewish priests, had come to be applied to the Christian ministers also and thus to be a synonym of *presbyter*. In OE., *presbyter* was usually represented by *prēost*; L. *sacerdos*, applied to a heathen or Jewish priest, was usually rendered by *sacred* (regularly so in Hexateuch, Psalter and Gospels); some times, when applied to a Jewish or Christian priest, by *prēost* or more particularly *mæsse prēost* (MASS-PRIEST). But, with the close of the OE. period, *sacred* became disused, and *prēost, prēst*, like OF *prestre*, became the current word alike for *presbyter* and *sacerdos*, and thus an ambiguous term

1589 FULKE *Defence* 1 13 Which distinction [of *sagrdos* and *πρεσβυτερος*] seeing the vulgar Latine texte doth alwaies rightly observe, it is in favour of your heretical Sacrificing Priesthoode, that you corruptly translate *Sacerdos* and *Presbyter* alwayes, as though they were all one, a Priest. 1897 WHATELY *Logic* 257 The term 'Priest' does seem to have implied the office of offering sacrifice, the term Priest is ambiguous, as corresponding to the terms *Hiereus* and *πρεσβύτερος* respectively, notwithstanding that there are points in which these two agree These therefore should be reckoned, not two different kinds of Priests but Priests in two different senses. 1889 LIGHTFOOT *Philippians* (ed 9) 184 The word 'priest' has two different senses. In the one it is a synonyme for presbyter or elder, and designates the minister who presides over and instructs a Christian congre gation: in the other it is equivalent to the Latin *sacerdos*, the Greek *ἱερεύς*, or the Hebrew כֹּהֵן the offerer of sacrifices, who also performs other mediatorial offices between God and man 1897 R. C. MORRIS *Monasterioli Priesthood* vii 8 *f.* 901 The Church of England in her refusal to abandon the title 'priests', (by this time identified verbally with *sacerdotes* and vopeis).]

3 In Great Britain (in early use, *prime minister of state*) 1 A descriptive designation, which has gradually grown to be the official title of the First Minister of State or leader of the administration.

Originally merely descriptive and unofficial; in the early 18th c. (perh. from its prior application in sense 2 to the sole minister of a despotic ruler) odious (see quot 1733); applied opprobriously to Walpole, and disowned by him, as later by Lord North Little used in later part of 18th c., *premier* being often substituted, also *first minister*; became usual by the middle of the 19th c and began to creep into official use from 1878. In 1905 fully recognized, and the precedence of the Prime Minister defined by King Edward VII For fuller history see A. F. Robbins in *N. & Q.* 8th s. XI. 69, and onward to 10th s. b Also the official designation of the leader of the administration in some of the self governing British colonies and 'dominions beyond the sea.'

The usual title of the chief executive officer of colonies is Premier in Canada and in Australia this is retained in most cases for the chief minister of each constituent colony while *prime minister* is used for the chief minister of the whole Dominion and of the Commonwealth; it is also the title in the Dominion of New Zealand, and in the colonies of Transvaal and Natal.

(The actual reason for the name does not appear; the sense 1 first or primary book, which suits sense 2, is less suitable

to sense 1, which some would connect, as a book of *Hours* with PRIME *sb* 1)]

L A name for prayer books or devotional manuals for the use of the laity, used in England before, and for some time after, the Reformation

The mediæval *Primarium* or *Primer* was mainly a copy or (in English) a translation of different parts of the Breviary and Manual For its origin and structure, see the Introduction to 'the Prymer or Lay Folks Prayer Book' edited by H Littlehales, E E T S 1895 7 In the 14th and 15th centuries, in its simplest form, it contained the Hours of the Blessed Virgin, the 7 Penitential and 15 Gradual Psalms the Litany, the Office for the Dead (Placebo and Dirige), and the Commendations to which however various additions were often made. In the early 16th c the printed editions of this in English (examples known from 1537) are often called on the title page *Prymer* and in the colophon *Horæ Beate Marie*, or the like The name was also given in 16th c to books similar in character but purpose partly based upon the *Sarum rite* whether put out by private persons (e g Marshall's Primer 1534) or with some sort of authority (e g The Primer of Henry VIII or by royal authority, as the King's Primer of 1545 and the successive recensions issued in the reigns of Hen VIII, Edw VI and Elizabeth also to the Uniform and Catholyke Prymer of Latin and English, appointed for general use by Queen Mary's Letters Patent in 1555. The title was also used for several English or Latin and English editions of *Hours* according to the Roman use, published in 1599 and later

After the Reformation *Primer* was also applied to books in which the offices for daily prayers were brought into the orders contained in the Book of Common Prayer

These are described in the Privilege to William Seres the printer of the first of them in 1553 (see quot) as books of private prayers, called and usually taken and reported for Primers set forth agreeable and according to the Book of common prayers Later forms of this under the title The Primer or Catechism set to th agreeable to the Book of Common Prayer were issued under Chas II, Jas II Geo II and Geo III, the last-app in 1783

2 An elementary school-book for teaching children to read, formerly, a little book, which children are first taught to read and to pray [Phillips (1706), 'a small prayer-book in which children are taught to read' (Johnson) 1755-73]

This sense gradually disengaged itself from the preceding, from which in early use it cannot be separated The books included under sense 1 appear to have been also used in teaching to read and as first reading books; and there may have been from early times forms of them specially intended for this purpose; such perhaps the primer of 1535 or c1386. In the 16th c printed books of this kind became common; that mentioned in quot. c 1537 has a section containing the A B C, followed by the Pater Noster, Ave Maria, Creed, Decalogue, forms of Grace before and after meat, and certain prayers. Recensions of Marshall's and Hilsey's Primers (quot 1539) also began with the A B C. Smaller works containing the part for children only, began to be officially published in 1545, under the title of 'The A B C' Primers for children issued under Edward VI and Elizabeth, contained also the Church Catechism; and after 1600 the main purpose of the Primer appears to have been educational; as known to Dr Johnson, it contained, besides the alphabetic matter, 'godly prayers and graces, very meet and necessary for the instruction of youth' In Scotland, the A B C with the Shorter Catechism containing also the Lord's Prayer, the Creed, Graces before and after meat, etc, was used as the first reading book down to c1800, and is still published as the official form of the Shorter Catechism. The use of the Primer, thus variously transformed, as a book in which children learned to read at length so overshadowed its original purpose that, when all the devotional parts were eliminated, popular usage still continued to apply the ancient name to the Abecedarium pure and simple.

[*Note* The history of this word and its original application are obscure The designation 'first' or 'earliest rose is not very applicable to the flower, which in no respect resembles a rose in colour, form, or habit of growth. And if 'rose be taken as vaguely synonymous with 'flower', the primrose is not manifestly the 'first flower of spring. The same holds good of the F *primevère* or cowslip, which flowers still later than the primrose. The L. *prima rosa* is not known before *c* 1450 (in *Alphita* see PRIMULA), which is later than the Eng word The It *prima rosa* in Florio, is of uncertain age In OF, *primerose* is cited only from some MSS of the *Geste des Lohérains*, and from *Per et al*, both of 12th c. The meaning is uncertain, though, as other MSS. of the *Lohérains* have the variant *primevoire* (mod F *primevère* cowslip), the flower meant may possibly have been the cowslip or the primrose. According to Bouillet *Dict. des Sciences* 1862–3, and Littré 1863–72, *primerose* is a synonym of *passe-rose*, popularly or locally applied to the Hollyhock, and to the Rose Campion (*Lychnis Coronaria*); but *primerose* is not recognized as an existing name of any flower in *La Flore des Jardins et du Champ* of Le Maoulet & Decaisne, 1855 Historical connexion between the OF and the 15th c. Eng word is thus uncertain. The original application in Eng is obscure the 15th c. vocabularies and glossaries use it to gloss *ligustrum*, a plant noted in Roman poets for its *white* flowers (now identified as the PRIVET, but by early glossists taken to be a herb), but as *ligustrum* is also glossed by *cowslepe*, *cowslope*, and one explanation of *prymrose* in Promp. Parv. is *primula* (and in Cath Angl *primula veris*), it is fairly certain that by the middle of the 15th c. *primrose* was applied to one or both species of *Primula*. By Palsgrave it is, like *prima rosa* in *Alphita*, identified with PRIMEROLE, which in parts of Normandy is now a name of the primrose In Turner's *Libellus* and *Names of Herbes*, *primrose* is certainly a *Primula* and prob. the primrose, in Lyte, 1578, it is figured and is there clearly the primrose (though the 'cowslippe, oxelippe, and prymerose' are all included as 'kindes of Primeroses') See also *Note* to PRIMULA.]

II. Specific uses.

5 *spec* The ruler of a principality or small state actually, nominally, or originally, a feudatory of a king or emperor

In origin, app a use of sense 2, describing a ruler who had no recognized title such as duke count, etc First used of Ital an and Welsh, subseq of German and other rulers of petty states. The rulers of Wales, or its divisions, down to the 11th c., bore the title of 'king (*brenhin*, *rex*); then the title sank to 'prince' (*tywysog*).

Thus all the princes of Germany are feudatories of the Emperor 1845 S. Austin *Ranke's Hist. Ref.* I 321 The husband of the most able and prudent of all the princes of the empire was provoked 1885 *Encycl Brit* XIX 738/2 Princes regarded as the political chiefs of states are inferior to emperors and kings, and not necessarily superior to reigning grand dukes or dukes. 1889 *Whitaker's Alm* 314/2 Bulgaria Prince, Alexander (of the House of Hesse). 6 A male member of a royal family, *esp.* in Great Britain, a son or grandson of a king or queen Also called *prince of the blood (royal)* (Blood *sb* 9). *Prince Consort*, the husband of a reigning female sovereign being himself a prince

In this sense originating in the title *Prince of Wales*, which, in the first instance, was simply a continuation of sense 5, as title of the deposed native Welsh princes, but dating from the reign of Edward III, customarily conferred upon the eldest surviving son of the King or Queen of England, came to be associated with this relationship. The title of Prince of Wales was at first the only 'prince' in England (see quot 1577), but in the reign of James I 'prince was extended to all the sons of the sovereign, and under Victoria (with 'princess') to all the grandchildren, being children of sons (quot 1885) After the example of England, the equivalent of 'prince' has been given, with some additions to the heir apparent to the throne in various countries, as *crown prince* in Germany Sweden, Denmark, and Japan, *prince imperial* in the French Empire, *prince royal* of *Asturias* in Spain *Prince of Piedmont* in Italy, etc. In most of these countries the title of prince is also given to male members of the royal family. (This sense may have been partly influenced by Roman usage under the empire, in which the title *princeps iuventutis* chief or 'prince of the youth', which was bestowed by the Senate upon the two grandsons of Augustus, was afterwards customarily conferred upon the probable successor to the throne on his first entry into public life)

A mere principle or method would not be sufficient; but the patent were actually for a process or thing produced, it would not be a valid objection that the specification described is as a method. 1846 Monson & Welsby *Exch* VIII 806 *note*, In this specification the plaintiff did not claim a patent for a mere principle, but for a mode of applying a well-known principle, viz. the heating of air by means of a mechanical apparatus, to fires and furnaces. 1858 Lardner *Handbk Nat Phil.* 255 This thermometer is sometimes varied in form and arrangement, but the principle remains the same.

b A general fact which forms the basis of any artificial device (e. g. of a system of measurement).

1821 J. Q. Adams in C. Davies *Metr Syst.* iii (1852) 121 The real original connexion between the cubic foot and the English bushel was not formed by avoirdupois weights and water, but by the easterling pound of twelve and fifteen ounces and Gascoign inch. It was the principle of the quadrantal and congius of the Romans, applied to the foot and the numerary pound of the Greeks. *Ibid* 179 Thus the gallon of wheat and the gallon of wine, though of different dimensions, balance each other as weights. This observation applies, however only to the original principle of the English system.

†9. A motive force or appliance, as in a machine.

1631 Milton *Unhn Carrier* ii. 20 And like an Engin moov'd with wheel and waight, His principles being ceast, he ended strait. 1659 *Chron. in Ann R of Sci.* Much attention was excited in the neighbourhood of Portland place, by the appearance of a steam-carriage, which made its way through a crowded passage, without any perceptible impulse ; one gentleman directed the moving principle, and another appeared to sit unconcerned behind.

[*Note. Privet* has been suggested to be a corruption of *Primprivet*, a name found in Prior's *Nomenclator*, and said to occur in the *Grete Herbal* as a name of the primrose, no such word occurs there. Another suggestion is that *pren etle*, *pren e*, are the same as *prin at le*, *prin* and applied to this shrub from its use in making hedges to cut off a private part of a garden, to conceal dung heaps, etc.; but of this there is no evidence. *Privet* or *Privett* occurs more than once as a place name in Hampshire, and the name *Privettes Bodia*, app. in that county, is found in the O E Chron., but no connexion of this with the shrub is known. *Prevet* also occurs in a 13th c. deed, where it is doubtful whether it is a proper name 1586 June 8 *Ancient Deed* P R O A. 8535, In omnibus maresiis pratis pascuis vallatis et boscis subscriptis [Parlington, Havant, Haints] excepto parco et exceptocooperto le prevet et Crofta que fuit Rogeri le Lung, que est comita portam domus. If this is the true evidence of the name of the shrub in ME., it would be tempting to render this 'covert of privet (as is done in *Catal. Anc Deeds* 1902, IV. 338)]

Pro-, *prefix* I The Latin adv and prep (see above), used in combination with verbs and their derivatives, and sometimes with other words not of verbal derivation

(Like the Cr *προ* the L was originally and usually *pō* but in some compounds it was occasionally and in others usually or always shortened to *prŏ*.)

A large number of Latin words so formed were retained in popular use in French (as in the other Romanic langs, many others were taken into French in earlier or later times as learned words, and were thence taken into English In later times words of this kind have been adopted or adapted in English directly from Latin, or have been formed immediately from Latin elements

II Of the prefix had often the popular form *por- pur- pour-* (see Pur-) but this, in many words, was subsequently changed back to the Latin form in *pro-*

I As an etymological element The following are the principal uses in Latin and I nglish (All words of this class appear as Main words.)

1 a. Forward, to or towards the front from a position in the rear or from out into a public position as *prōcēdĕre* to go forward Procedure *prōcēdŏre* to set forth Produce *prōdūcĕre* to pour forth (I roduse), *prōjĭcĕre* to throw forth, the ject *prōmĭnēre* to put out (Prominent), *prōnuntĭare* to speak out, Pronounce, *prōpōnĕre* to put forth, Propose, Purpose, *prōtrūdĕre* to thrust forth Protrude

b To the front of, down before (the face of), forward and down as *prōcĭdĕre* to fall forward or down (Procidence) *prōclīvis* sloping downward Proclive *prōcŭlcare* to trample down Proculcate *prōcumbĕre* to fall down forward (Procumbent) *profligare* to dash down (Profligate), *prōlāpi prōlapsus* to slip down forwards (Prolapse), *prōsternĕre, prōstrāre* to strew or lay flat before one, to Prostrate.

c Forth from its place, away; as *prōdĕre* to give away), betray (Prodition) *prōdūcere* to drive away, dissipate (Prodigal), *profugere* to flee away (Profugate)

d Forward onward in a course or in time; as *prōcēdĕre* to Proceed, *prōcessus* Process, *prōcrastinātre* to defer till the morrow, Procrastinate, *prōgredi* to step forward, Progress, *prōmuvere* to drive onward (Promemana), *promovēre promōtĭ* to move onward, Promove, Promote, *prōpellĕre* to drive forward Propel

e Out, with outward extension; as *prōdūcĭtĭle* able to be drawn out, Productile *prōlixus* Prolix *prōpāgāre* to plant out Propagate, *prōtĕrĕre prōtractĭ* to drag out, Protract

f Before in place in front of as *prōsidēre* to hold in front hold back, Prohibit *prōscribĕre* to write in front, Proscribe, *prōspĕre* to cover in front, Protect

g Before in time in anticipation of in provision for as *prōdigium* Prodigy *prōlŏqŭi* to speak before (Prolocution), *prōvidĕre* to foresee, Provide.

h For, in preparation for on behalf of; as *prōcinctus* girt for, Procinct *prōcūrāre* to take care for, Procure, *prosperus* wished for Prosperous, *prōfĭcĭo* to do service to, Profit

i With worn-down or obscure force; as *prōcērus* tall, Procerous, *prōfānus* Profane *profundĕre* deep Profound, *prōles* offspring (Proletaire), *prōmerĕri* to deserve (Promerit) *prōmiscuus* mixed, Promiscuous, *prōverbium* Proverb, *prōvincĭa* Province.

2 Frequently prefixed in Latin to names of relationship, answering to Eng 'great' or 'grand', F *grand* and *petit*, as *avus* grandfather, *pro-avus* great-grandfather, *amita* aunt, father's sister, *pro amita* great-aunt, grandfather's sister, *gener* son in law, *progener* grandson-in-law, granddaughter's husband Sc *pronepos* great grandson, great-nephew, Prenephew, Pronepot, *proneptis* great-granddaughter, great niece, Pronifce Pronept

3 Pro- for Pra-, Pre- In late and medieval Lat *pro-* was sometimes substituted for *prae*, *pre*, partly through confusion of sense, partly perhaps under the influence of words from Greek, such as *prologus, prophēta, procœsmium* Examples of this are frequent in MS. where, however, as in most MSS., it is often difficult to say whether *pro-* was intended, or was merely a scribal or copyist's error, due to confusion of the written e and o Examples will be found among the cross references

II. As a living prefix

4 In Latin *pro-* in the sense 'for', 'instead of', 'in place of', was prefixed to a sb, app originally in prepositional construction, as *prō consule* (one acting) for a consul afterwards combined with the sb, as *pro consul* = deputy-consul; so *prōdictātor, prōfamen, prōgŭvernātor, prōlēgātus, pro magister prōpraefectus prōpretor*, also in a few names of things, as *prōnŭmen* Pronoun, *prōtŏthēta* deputy guardianship.

English has examples of *pro* prefixed a. to names of persons (officials or functionaries), 'acting as deputy', as *pro-Grand Master, pro-guardian, pro legate, pro provincial, pro provost pro rector, pro seneschal, pro tetrarch, pro treasurer pro trilune, pro warden*, etc, also Pro consul, Pro doctor, Prorector, etc b to names of things as *pro-vestry* (something serving the purpose of a vestry) *pro-skin* for *pro-cloth* (Promord), etc; also Pro-cathedral, Pro leg, etc c to an adj, as *pro-ecclesiastical*, serving as a substitute for what is ethical, *pro-su bstantive* (see quot) hence *pro substantively* adv

5 In sense 'for, in favour of, on the side of'

This use is entirely modern and has no precedent or analogy in Latin It appears to be due to the use of *pro* in Pro & con, 'for and against', a certain extent, combinations with *pro-* take the place of those with Philo-, as *philo-Turk, philo-Russian*, The appear to have begun c 1825, but to have been comparatively rare up to 1876, since which date they have swarmed in the journalistic press, usually in antitheses to formations in *anti-* expressed or understood *Pro-Boer* and *anti British* were terms of opprobrium during the South African War, 1899-1902

Pro- (*pro*), *pref*.[2] repr the Gr preposition πρό, meaning 'before' (of time, position, preference, priority, etc.), forming in Greek many compounds —verbs, substantives, and adjectives. Of the sbs. and their derivatives more than 60 were adopted in late Latin as technical terms of rhetoric, philosophy, natural history, art, and Jewish or Christian religion (e.g. *problēma, probasis, prodromus, prolēpsis, prologus, prophēta* (*prophētia, prophēticus, prophētizāre*), *propolis, proscenium, prostylus, protasis*). With the revival of learning many more Greek terms were latinized. Many of these latinized forms of both periods have been adopted or adapted in the modern languages generally, and have subsequently served as models for the formation of new combinations from Greek (less commonly from Latin) elements, in the nomenclature of modern science and philosophy. The older and more important of the English words so derived appear in their alphabetical order as Main words. Those in which *pro* is more obviously a prefix to a word itself of Greek origin, or which are merely technical terms, follow here

Probabilionism (prŏbăbi lĭonĭz'm), [f as next + -ism.] The doctrine of the probabilionists, according to which, in opposition to probabilism, it is claimed that that side on which the evidence preponderates is more probably right and there fore ought to be followed

1845 Glasgow *Glean* (1879) VII 192 Probabilism is by no means the universal or compulsory doctrine of the Roman theologians It is confronted by a system called Probabilionism which teaches that when in doubt among several alternatives of conduct, we are bound to choose that which has the greatest likelihood of being right 1882–3 *Schaff's Encycl Relig Knowl.* III 1931 Probabilorism demands that the more probable opinion shall always be chosen. 1885 *Catholic Dict* s v *Moral theol xy*

Probabilorist (prŏbăbi lŏrist) [= F *probabilioriste*, mod L *probabilioriorista*, f L *probabilior* more probable, compar of *probabilis* see -ist] One who holds the doctrine of probabilorism.

1707–27 *Chambers Cycl* s v *Probabilists*, Those who oppose this doctrine [of the Probabilists], and assert, that we are obliged, on pain of sinning, always to take the more probable side, are called probal liorists The Jansenists, and particularly the Port royalists, are probabilioriorists. 1768 J Barretti *Acc. 2. *Philos* The theory that there is no absolutely certain knowledge, but that there may be grounds of belief sufficient for practical life

1590 Baldwin *Dict I bilos* II 344 The term probabilism is also used to describe the theory which mediates between a sceptical view regarding knowledge, and the needs of practical life.

Probabilist (prŏ'băbĭlĭst) Also **? probabilist** [= F *probabiliste* (17th c.), ad mod L *probabilista*, f L *probabili-is* Probable see -ist]

3 In a University, one of two or more officers periodically elected by the members of the University or one of its constituent sections, whose duties have varied at different times and in different places. The primary function of the office seems to have been representative, esp in law-suits, and in the administration of corporate funds.

a. In reference to medieval (and Scottish) universities, an occasional anglicised form of the L. term *procurator* actually used see Procurator 3

1895 Rashdall *Univ Europe* I 315 (Paris) The first document in which the Rector and Proctors are clearly distinguished from one another is a Statute of the Faculty of Arts in 1245. *Ibid* II 121 [At Montpellier] as at Oxford the Masters are more directly represented by two Proctors, the office circulating among them The functions of these Proctors were primarily financial, as originally were those of the Proctors of Paris and Oxford *Ibid* 296 [At St. Andrews] The Masters and students—divided into the Four Nations of *Fife*, Lothian, Angus, and Britain, each with its Proctor—elected the Rector *Ibid* 306 [At Glasgow] Only on occasions of the Rectorial elections

was the organisation of Nations and student Proctors called into actual existence—for which purpose it has lasted down to the present day

b. In modern use, as at Oxford and Cambridge, each of two officers appointed annually to the charge various functions in connexion with the meetings of the University and its various Boards, the examinations and conferment of degrees, and the like; they are also charged with the discipline of all persons *in statu pupillari*, and the summary punishment of minor offences.

In the old English Universities, they were formerly called *Northern* and *Southern Proctor* respectively (see PRO CURATOR 3), they are now distinguished as *Senior* and *Junior Proctor*, in accordance with their university seniority They are appointed or elected by the various colleges in rotation At Oxford they are the representatives of the body of Masters of Arts, and, as such, are assessors to the Chancellor or Vice-Chancellor, and ex-officio members of the Hebdomadal Council and of almost all University Boards and Delegacies, they exercise a joint veto upon the proceedings and decrees of Congregation and Convocation, ask graces for degrees in the Ancient House of Convocation nominate delegates not otherwise specially appointed, supervise the examiners and examinations conjointly with the Vice Chancellor, and concur with him in the conferring of all degrees. At Cambridge their duties and functions are similar, but less extensive Proctors also exist with certain functions at Dublin and at Durham.

Proctors dogs or *bulldogs* (*Univ slang*), the sworn constables who accompany the proctors in their nightly perambulation of the streets for the purpose of preventing disorder

II 4. A public teacher or instructor of the highest rank in a specific faculty or branch of learning, *spec.* one who holds an endowed or established 'chair' in a university or one of its colleges. Also frequently applied to the tutors or lecturers on the staff of theological and other professional or technical colleges, academies, and seminaries.

In the mediæval European Universities, at first simply a synonym of *Magister* or *Doctor* (degrees being originally qualifications to teach); but in this use not common as an English word. The right originally possessed by any Master or Doctor to teach publicly in the schools of his Faculty was gradually restricted to an inner circle of teachers and the term *Professor* came eventually to be confined to the holders of salaried or endowed teaching offices, or to the highest class of these, such appellations as *Reader, Lecturer, Instructor*, being given to teachers of lower rank. In the old English Universities the ancient usage survives in the letters S T P (*Sacræ Theologiæ Professor*) for D D: the modern use is largely due to the creation of five *Regius Professors* by Henry VIII (a number in recent times increased to seven). The endowed teachers of some other subjects were at first called *prælectors*, but this has generally been superseded by *professor*. See Rashdall *Univ. Europe Med. Ages* I 21, etc.

Cox *Saint Maudlin* iv. (ed. 3) 91 Can we not project ourselves so far into the future as to anticipate the time when [etc.]? 1879 Harlan *Eyesight* vi. 37 An excited or disordered brain may project some phantasm of its own conjuring and see it as distinctly as if it were a tangible object. 1903 Myers *Human Personality* I. 52 The occasional power of some agent to project himself phantasmally; to make himself manifest, as though in actual presence, to some percipient at a distance

11 *Geom.* To draw straight lines or 'rays' from a centre through every point of a given figure, so that they fall upon or intersect a surface and produce upon it a new figure of which each point corresponds to a point of the original. (With either the rays, the original figure, or the resulting figure as obj.) Hence to represent or delineate (a figure) according to any system of correspondence between its points and the points of the surface on which it is delineated

1679 Moxon *Mech. Exerc.* ix. 151 The manner of projecting them, is copiously taught in many Books of Architecture. *Ibid.* 152 Winding Stairs are projected on a round Profile. 1832 Brewster *Optics* i. 9 The truth of this rule may be found by projecting fig. 7 upon a large scale. 1854 Hooker *Himal. Jrnls.* I. Pref. 17, I did not use instruments in projecting the outlines. 1866 Proctor *Handbk. Stars* 19 The whole hemisphere is projected into a circle whose radius is twice that of a great circle of the sphere. 1885 *Encycl. Brit.* XIX. 748/1 Any conic can be projected into any other conic. 1887 D. A. Low *Machine Drawing* (1892) 116 Draw and complete the two views, as shown; and add an end elevation, properly projected. 1895 Story Maskelyne *Crystallogr.* iii. 488 It may happen that we wish to project the two crystals on a plane perpendicular to the twin face

b *Chartography* To make a geometrical or other projection or representation on a plane sur face of (the earth, sky, or any portion thereof)

1855 Brewster *Newton* I. x. 11 We were not able to determine whether they [dials at Woolsthorpe] were executed by a tentative process or were more systematically projected, from a knowledge of the doctrine of the sphere. 1858 Hyrschel *Outl. Astron.* iv. § 279 (ed. 5) 183 As spherical surface can by no contrivance be extended or projected into a plane without undue enlargement or contraction of some parts. 1866 Proctor *Handbk. Stars* 12 A simple method of projecting the meridians and parallels on any small portion of the celestial sphere. 1870 Lowell *Among my Bks.* Ser. I. (1873) 170 As if Shakespeare's world were one which Mercator could have projected. 1885 [see Projected (projdʒɛ·ktid), *ppl. a.* [ME.]

IV 6 *Geom* The drawing of straight lines or 'rays' according to some particular method through every point of a given figure, usually so as to fall upon or intersect a surface and produce upon it a new figure each point of which corresponds to a point of the original figure Hence, each of such rays, or of such points of the resulting figure, is said to be the *projection* of a point of the original one, or the whole resulting figure is said to be the *projection* of the original

In *central projection* (often called simply *projection*) the rays are all drawn from one point or 'centre'; in *axial projection* a number of planes are similarly drawn from one line or axis

7 The drawing according to scale, and on mathematical principles, of a plan, chart, or map of a surface, or a diagram on the flat of a machine or the like, *spec* the representation of any spherical surface on the flat, e g of the whole or any part of the surface of the earth, more fully called *map-projection* (see b)

b *Chartography* A representation on a plane surface, on any system, geometrical or other, of the whole or any part of the surface of the earth, or of the celestial sphere, any one of the many modes in which this is done

The earlier modes were actually the result of geometrical projection; but the name has been extended to representations which lie quite outside the etymological sense

The projections (in this extended sense) that have been used to represent the whole, the half or parts of the earth's surface are more than thirty, they have been classified by Major C F Close (*Sketch of Map Projections* 1901, *Text bk of Topogr & Geogr Surveying*, 1905 xi) under the following heads i Orthomorphic (conform, or conformable), preserving the *forms* of areas (but not their relative sizes) ii *Equal area* (equivalent, or surface true) in which equal areas of the surface are represented by equal areas on the map but the forms of these when large, are distorted iii *Perspective* representing the surface as seen from some point of view at the centre on the surface, or at various distances from it, iv Zenithal (q v), v Conical (q v) vi Cylindrical (q v), vii *Conventional* produced by arbitrary rules for convenience of drawing and the approximate representation of a number of properties such is the *globular*, commonly used in school maps of the two hemispheres Of the varieties in actual use many belong to two, and some to three of these classes; thus *Mercator's projection* is orthomorphic and cylindrical For *gnomonic, homolographic orthographic, polyconic sinusoidal, stereographic* etc. *projections* see these adjs Many projections are also named after their inventors as *Mercator's Bonne's* (modified conical equal area) *Sanson Flamsteed's* (sinusoidal equal area), *Airy's* (balance of errors), *Cassini's* (rectangular co-ordinate) used in the 1 inch Ordnance Maps of England and 6-inch of Great Britain, the six different projections of *Lambert* etc For these see the works cited above and other special treatises.

c *Cryst* The projection of a point in each face of a crystal upon an imaginary containing sphere, called the *sphere of projection*

From the centre of the sphere a line is drawn perpendicular to each face of the crystal, so that to each of these there corresponds a point on the sphere a plane map of the sphere showing all these points is called a *projection of the crystal*

1878 Gurney *Crystallogr* 32 The diameter of the sphere of projection which is at right angles to the zone plane is called the zone axis 1895 Story Maskelyne *Crystallogr* ii 27 On the sphere of projection and the principles of its stereographic representation *Ibid* 28 Fig 9 represents in orthographic projection the faces and the poles of the cubo octahedron *Ibid* 29 The *plane of projection* thus bounded by a great circle of the sphere is represented by the plane of the paper on which the circle is drawn, which latter will be termed the *circle of projection* or primitive circle

1885 LEUDESDORF *Cremona's Prof Geom.* 50 Projective Geometry dealing with projective properties (i e such as are not altered by projection) is chiefly concerned with descriptive properties of figures. Since the magnitude of a geometric figure is altered by projection, metrical properties are as a rule not projective . . But there is one important class of metrical properties (anharmonic properties) which are projective and the discussion of which therefore finds a place in the Projective Geometry **1908** *Athenæum* 21 Mar 350/2 'On the Projective Geometry of some Covariants of a Binary Quintic', by Prof E B Elliott.
